

True 2 - Factor Authentication and Immediate Threat Detection

They can steal your card, but not your face...

Upgrade your access control and add threat detection simultaneously with a system that is easily tailored and layered to your specific needs.

Thousands of badges are lost/stolen each year leading to a need for a secondary biometric solution in sensitive environments. Some biometric solutions are intrusive and prone to misreads. With First Line Facial Recognition, you get the best non - intrusive secondary biometric solution with added capabilities of deterrence, threat detection, and alert capabilities.

“Poor Management of Security Badges Leaves Federal Buildings Vulnerable to Shooters, and Terrorist Attacks” -- *United States Inspector General Report 2016*

How It Works & Features

User creates a database custom-designed database for his or her specific needs. **FIRST LINE** Facial Recognition monitors, detects, and alerts the user when a threat or unknown subject's face is captured. Validates employees, contractors, and visitors entries. The software provides:

Face Identification: can be separated into three distinct categories: known, unknown and alert.

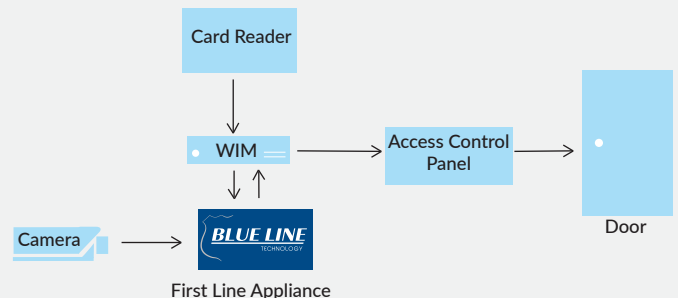

Notification: on-site monitoring, emails, text messaging including camera location, name, notes, and photos of the alert.

Monitor Alerts: allow for playback video feature

WIM (Wiegand Interface Module)

Proven to provide two factor authentication

The vulnerability of cards and fobs is eliminated with the addition of **FIRST LINE** Facial Recogni-

- Prevents access with cloned, stolen, or loaned cards
- Provides maximum benefits for large database
- Integrates easily with existing systems
- Installs work with existing access control systems and video management

Cost Benefits with First Line

Theft of time, data, and the assurance that the right people are where they should be are all cost impacts to corporations, airports, health care, and hospitality venues alike.

PROTECT data storage rooms from external and internal threats.

VALIDATE access control of employees, contractors, and visitors.

TRACK time and attendance

KEEP confidential data secure.

REDUCE cost of card replacement and guards.

INCREASE liability protection against workplace and domestic violence.

Why is this the best biometric?

- Hands - free, hygienic solution leading to better adoption
- HD digital video record of events
- A proven deterrent
- Unauthorized personnel tracking and Immediate notification
- Layered solution that tailors to your needs

Application Development

Casinos	Corporations
Nursing Homes	Hospitals
Gyms	Banks
Government	Retail
Department Build-	Mass Transit
	Schools

With a mission to provide enhanced technology to your security solution, our team is committed to prevent, protect, alert, and welcome your employees and customers. Blue Line Technology features a broad application knowledge base of senior law enforcement, computational scientists, and business professionals that can help formulate the best solution.
